**Volume 46, 2003**

---

**Content Index**
**Part 1:**

- Perceiving prosody from the face and voice: 1  
Distinguishing statements from echoic questions in English  
*Ravindra J. Srinivasan and Dominic W. Massaro*
- Reanalysis of clause boundaries in Japanese 23  
as a constraint-driven process  
*Edson T. Miyamoto*
- Effects of pitch accent position, type, and status 53  
on focus projection  
*Pauline Welby*

**Parts 2 & 3: (Special Issue: Phonological Acquisition)**

- Preface 85  
*Sharon Peperkamp*
- Phonological acquisition: 87  
Recent attainments and new challenges  
*Sharon Peperkamp*
- Phonetic diversity, statistical learning, 115  
and acquisition of phonology  
*Janet B. Pierrehumbert*
- A statistical basis for speech sound discrimination 155  
*Jennifer L. Anderson, James L. Morgan, and Katherine S. White*
- Infant perception of non-native consonant contrasts 183  
that adults assimilate in different ways  
*Catherine C. Best and Gerald W. McRoberts*
- Simultaneous bilingualism and the perception 217  
of a language-specific vowel contrast in the first year of life  
*Laura Bosch and Núria Sebastián-Gallés*
- Early word learners' ability to access phonetic detail 245  
in well-known words  
*Christopher T. Fennell and Janet F. Werker*
- Phonetic detail in the developing lexicon 265  
*Daniel Swingley*
- Learning foreign vowels 295  
*John Kingston*
- Language and Speech* —————

**Index****Volume 46, 2003****Content Index****Part 1:**

Perceiving prosody from the face and voice: 1

Distinguishing statements from echoic questions in English

*Ravindra J. Srinivasan and Dominic W. Massaro*

Reanalysis of clause boundaries in Japanese 23

as a constraint-driven process

*Edson T. Miyamoto*

Effects of pitch accent position, type, and status 53

on focus projection

*Pauline Welby*

**Parts 2 & 3: (Special Issue: Phonological Acquisition)**

Preface 85

*Sharon Peperkamp*

Phonological acquisition: 87

Recent attainments and new challenges

*Sharon Peperkamp*

Phonetic diversity, statistical learning, 115

and acquisition of phonology

*Janet B. Pierrehumbert*

A statistical basis for speech sound discrimination 155

*Jennifer L. Anderson, James L. Morgan, and Katherine S. White*

Infant perception of non-native consonant contrasts 183

that adults assimilate in different ways

*Catherine C. Best and Gerald W. McRoberts*

Simultaneous bilingualism and the perception 217

of a language-specific vowel contrast in the first year of life

*Laura Bosch and Núria Sebastián-Gallés*

Early word learners' ability to access phonetic detail 245

in well-known words

*Christopher T. Fennell and Janet F. Werker*

Phonetic detail in the developing lexicon 265

*Daniel Swingley*

Learning foreign vowels 295

*John Kingston*

*Language and Speech*

**Part 4:**

- Effects of stress typicality during speeded grammatical classification 353  
*Joanne Arciuli and Linda Cupples*
- Perception of English intonation by English, Spanish, and Chinese listeners 375  
*Esther Grabe, Burton S. Rosner, José E. García-Albea, and Xiaolin Zhou*
- Factors affecting stress placement for English nonwords 403  
 include syllabic structure, lexical class, and stress patterns  
 of phonologically similar words  
*Susan G. Guion, J. J. Clark, Tetsuo Harada, and Ratree P. Wayland*

**Author Index**

Anderson, Jennifer L.	155	Miyamoto, Edson T.	23
Arciuli, Joanne	353	Morgan, James L.	155
Best, Catherine C.	183	Peperkamp, Sharon	85, 87
Bosch, Laura	217	Pierrehumbert, Janet B.	115
Clark, J. J.	403	Rosner, Burton S.	375
Cupples, Linda	353	Sebastián-Gallés, Núria	217
Fennell, Christopher T.	245	Srinivasan, Ravindra J.	1
García-Albea, José E.	375	Swingley, Daniel	265
Grabe, Esther	375	Wayland, Ratree P.	403
Guion, Susan G.	403	Welby, Pauline	53
Harada, Tetsuo	403	Werker, Janet F.	245
Kingston, John	295	White, Katherine S.	155
Massaro, Dominic W.	1	Zhou, Xiaolin	375
McRoberts, Gerald W.	183		

**Key word Index**

---

articulatory phonology	183	multidimensional scaling	375
bilingual exposure	217	native-vowel discrimination	217
bimodal	1	non-native consonants	183
case marking	23	non-native contrasts	155
categorization	115	non-native speakers	353
clause boundaries	23	perception	1, 375
contrastive categories	217	perceptual assimilation	183
cross-language	183	phoneme	265
disyllabic words	353	phoneme discrimination	155
English phonology	403	phonemes	87
exemplars	115, 295	phonetic	245
features	295	phonological acquisition	87
fixation	265	phonological categories	155
focus	53	phonological theory	87
focus projection	53	phonotactics	87, 115
frequency modulation	375	pitch accent	53
German	295	prosody	1, 115
grammatical classification	353	question	1
individual differences	353	reanalysis	23
infant speech perception	155, 183	representations	245
infants	217, 245	segments	87
intonation	53, 375	sentence processing	23
Japanese	23	speech perception	217
language acquisition	265	statistical learning	115, 155, 403
learning	295	syllable structure	403
lexical	245	synthesis	1
lexical class	403	vowels	295
lexical stress	353	word recognition	265
lexicon	265	word stress	403
minimal pairs	245
